

The finer partition mostly subdivides the coarser one

Coarser CPM scale: $K = 4$ ($\gamma = 0.211$)

- 1 Broad institutional and environmental field
- 2 Access, tourism, and safety
- 3 Resource and science frontier
- 4 Environmental assessment

Finer CPM scale: $K = 7$ ($\gamma = 0.273$)

- 1 Procedural and scientific core
- 2 Environmental management
- 3 Access, tourism, and safety
- 4 Resources and planning
- 5 Cooperation and reporting (cross-boundary)
- 6 Environmental domains and reporting
- 7 Acoustics and sub-glacial lakes (cross-boundary)

95.6% of concerns remain within a coarse parent; diamonds mark the two fine communities that cross coarse boundaries.
